Our Accolades

We have been ranked and recommended by Asia Pacific Legal 500 for Banking and Finance, Corporate/Mergers and Acquisitions, Dispute Resolution, Industrial Relations, IT & Telecoms, Intellectual Property, Islamic Finance, Projects & Energy, Real Estate & Construction and Tax. Additionally, we have also been ranked by Chambers & Partners - Asia for Dispute Resolution, Tax and Intellectual Property.

In 1988, Raja, Darryl & Loh acted for a Singapore based company to resolve a dispute it had with a Malaysian state government in relation to the construction of a water treatment plant. That was our first substantial construction case. We have since grown considerably and over the years we have acted for and assisted many multi-national companies or their subsidiaries in relation to their construction related matters. The firm is now one of the leaders in our market for construction related legal services.

We believe in providing our clients with innovative, practical, commercially driven and strategically motivated solutions to their problems at all stages of the construction process.

Experience

We have developed significant local and some international expertise in many aspects of construction projects.

Construction Documentation

The Construction Practice Group together with the Corporate and Commercial Department of the firm are routinely instructed on drafting, preparing, reviewing and/or advising on documentation relating to construction projects (including tender documents).

Additional Services

In line with our commitment to giving our clients all round legal services, we provide our clients updates on laws specifically affecting the construction industry. Where requested, we also present talks on topics and developments that may have an impact on particular clients as well as documentation management from a legal perspective.
